

SOFTWARE ENGINEER TO ENERGY TRADING IN DENMARK OR SINGAPORE

At PowerMart we trade electricity and gas across Europe and strive to be the best every day. Right now, we're looking for a Software Engineer who shares these values. So, if you have a mindset like ours and can help us develop and maintain critical tools and infrastructure, you might be the new colleague we are looking for.

We are a Danish energy trading company with 10 years of history and geographical presence in Aarhus, Copenhagen and Singapore.

Do you want to be our next colleague?

We believe in being onecommitted team. We live by clear values and a strong sense of responsibility to both the energy markets and each other. And we take pride in what we do.

Obviously, you must thrive in a vibrant energy market but most importantly, you prefer to be part of a family of colleagues who share a genuine interest in each other. In return, we see it as a continuous obligation to add to your interest and knowledge. A mutual investment to succeed and to ensure focus and development in both business and relations.

With PowerMart you get a chance to reach your full potential. We will offer the right opportunities, but it's up to you to accomplish your goals and tasks in order to become our next highly performing colleague

**WE ARE COMMITTED
TO DO OUR BEST
EVERY DAY - BOTH
AS TRADERS AND AS
COLLEAGUES!**

THE POSITION

As Software Engineer, you will be working on several different projects such as algorithmic trading, auto-trading, application architecture, data cleaning and updating as well as elementary business and economic practices.

Among your responsibilities are:

- > Back-end .NET development
- > Interaction and dialogue with users
- > CI and deployment using Github Actions, Docker and Ansible
- > Frontend development using .NET Blazor
- > Optionally, python development

To succeed in the job, you need to:

- > Have experience with C#.NET (Core and Framework), Java or similar
- > Be fluent in English, both spoken and written
- > Be both curious and passionate about technology
- > Be willing to test out new ideas and help shape the direction of the company
- > Engage in knowledge sharing and continuous education

WE'RE OFFERING

We're ready to pay a competitive compensation for your skills and your will to be the best. Furthermore, you will be a part of a team where:

- > You are important
- > You have a defined role but are empowered to decide how you play it
- > We're individualists but know that we only win as *one* team
- > We're dedicated when we're at work - and dedicated to flexibility and a life in balance

PRACTICAL INFORMATION

The position is full-time and is based in the center of either Aarhus or Singapore (based on your preferences).

Send your application and relevant documents to jobs@powermart.eu.

Experienced and non-experienced are all welcome to apply.

Deadline: June 16th, but don't wait too long as we'll evaluate the applications on an ongoing basis.

ABOUT POWERMART

PowerMart is a Danish energy trading house founded in 2014. We're based in the center of Aarhus, Copenhagen, and Singapore, with Aarhus as our headquarters and the vibrant feeling of the city is part of our DNA. We trade power and gas in all major markets across Europe, and we love the dynamics and the complexity. Our team consists of dedicated specialists from different parts of Europe.
